

## PUBLIC GOODS POOL

### REPORT OF PATIENT SERVICES REVENUE RECEIVED AND SURCHARGE OBLIGATIONS

### D&TC - AMBULATORY SURGERY SERVICES

#### GENERAL INSTRUCTIONS

Diagnostic and Treatment Centers (D&TCs), issued an operating certificate pursuant to Article 28 of the Public Health Law (PHL), providing ambulatory surgical services are required to submit reports electronically for reporting periods on and after January 1, 2005 by accessing the WEB at: [www.hcrapools.org](http://www.hcrapools.org). Since you are not precluded from submitting reports electronically for periods prior to the date mandated by law, we encourage you to electronically file for reporting periods prior to January 1, 2005.

Providers are required to file the Provider Certification Form and the two most recent service year portions of the Report of Patient Services Revenue and Surcharge Obligations monthly, even if there is no activity to report. Prior service year portions of the report are required only when a provider has net patient services revenue and/or prior period adjustments to report which relate to those service years. Revenue received during the month for surchargeable claims for services rendered during a prior service year must be reported in the appropriate service year. Additionally, adjustments to information previously reported for such service years must be reported as prior period adjustments in the appropriate service year.

A designated provider's monthly Public Goods Pool reporting obligation does not cease when the provider has a change of status (i.e., ceased operations, surrendered license, merged with another provider, etc.) The provider's monthly Public Goods Pool reporting obligation, for the service period during which the entity was a designated provider of services under the HCRA, will continue for a period of one year following the end of the year in which the status change occurred or until all claims for such service period have been adjudicated. Once all claims have been adjudicated, the provider must submit a final monthly report along with a completed "Change of Designated Provider Status" form (DOH-4117) indicating the effective date when all claims were adjudicated. This form is located at the Web address listed on the next page. In addition, if you have changed your facility name and/or address, please complete Attachment 2.10, Provider Name/Address Change Form located at the WEB address on the next page.

Pursuant to the New York Health Care Reform Act of 1996 (HCRA), each service period's pool receipts are dedicated to specific purposes and for specific amounts. As a result:

- Monthly reports filed by providers must be segregated into service period portions. For example, providers must include revenue received for services provided in 2002 in the 2002 portion of the report even though the revenue was received in a subsequent service period. In addition any prior period adjustments must be reported in the service period section of the report to which they apply. For example, a correction of an amount reported for service period 2002 must be reported as a prior period adjustment on the 2002 portion of the monthly report.

Note that the guidance offered in these instructions is not all-inclusive. Please refer to the New York Health Care Reform Acts and related correspondence disseminated by the Department which is available on the WEB. **The HCRA WEB address is (lower case):**

**[www.health.state.ny.us/nysdoh/hcra/hcrahome.htm](http://www.health.state.ny.us/nysdoh/hcra/hcrahome.htm)**

## **PROVIDER CERTIFICATION FORM**

**MONTH/YEAR:** Enter month and year for which data is being reported.

**PROVIDER NAME:** Enter name of provider.

**ADDRESS:** Enter address of provider.

**FEDERAL TAX ID NUMBER:** Enter federal identification number used by provider for federal tax purposes.

**OPERATING CERTIFICATE NUMBER:** Enter provider's operating certificate number. THE FACILITY'S OPERATING CERTIFICATE NUMBER MUST BE ENTERED ON THE REPORTING FORMS AND PAYMENT CHECK.

**COMPLETED BY/TITLE/TELEPHONE:** Enter name, title and telephone number of the person who will be responsible for providing the Department related information regarding the provider's report form(s).

**CERTIFICATION:** Enter name of person who is certifying to the accuracy and correctness of the report form(s) submitted.

**SIGNATURE/DATE:** The person responsible for certifying the accuracy and correctness of the report form(s) submitted should sign and date the form.

**TYPE/PRINT NAME:** Print or type the name of the person responsible for certifying the accuracy and correctness of the report form(s) submitted.

**TITLE:** Enter title of the person responsible for signing the Certification form.

**REPORT OF PATIENT SERVICES REVENUE RECEIVED  
AND SURCHARGE OBLIGATIONS**

**GENERAL INSTRUCTIONS**

**At the top of the form:**

Enter an "X" in the box at the top of the report form if the provider has received no net patient services revenue during the report month and has no applicable prior period adjustments to report for the specified service year.

**MONTH/YEAR:** Enter appropriate report date.

**PROVIDER NAME:** Enter name of provider.

**OPERATING CERTIFICATE #:** Enter provider's operating certificate number. THE FACILITY'S OPERATING CERTIFICATE NUMBER MUST BE ENTERED ON THE REPORTING FORMS AND PAYMENT CHECK.

**ENTER WHOLE DOLLAR AMOUNTS ONLY**

**COLUMNAR DESCRIPTIONS**

**Column A - Description.** This column itemizes total net patient services revenue received, including surcharges.

**Column B - Current Month.** This column is to be used for reporting total net patient services revenue received during the report month, including surcharges. If there are no prior period adjustments to report in Column C, do not complete this column. See Column D instructions.

**Column C - Prior Period Adjustment.** This column is to be used for reporting adjustments due to a reporting error or omission in a prior month. This may be either a positive or negative adjustment. Denote negative amounts with brackets (). Detailed records must be maintained since all report information is subject to audit.

**Column D - Total.** Add the individual amounts reported in Column B to the respective amounts reported in Column C and enter the result on the appropriate line in Column D. If there were no prior period adjustments in Column C, total net patient services revenue received during the month may be entered in Column D only.

**NET PATIENT SERVICES REVENUE - definition/assessability, in general:**

Net patient services revenue shall mean all moneys received for or on account of hospital or medical services provided or related to patients whose purpose is the treatment or prevention of human illness, disease, injury or disability. Providers should refer to the Line 2 instructions for a more specific definition for net patients services revenue for diagnostic and treatment centers providing ambulatory surgical services (PHL Section 2807-j).

Examples of revenue which fall outside this definition include: revenue received for clinical laboratory tests performed in connection with the screening of employees for drug use; revenue received for clinical laboratory tests and/or physical examinations performed in connection with applications for life insurance, health insurance, disability insurance or employment; revenue received for clinical laboratory tests performed for the purpose of establishing paternity; and revenue received for forensic laboratory testing.

It should be noted that certain grants and other revenue would be included and may be considered assessable if representing moneys received for the provision of care or other health-related services to individuals. Note however, that government deficit financing grants are never assessable. Such deficit financing grants would be included in Line 2 and then shown as non-assessable on Line 3(g).

## LINEAR DESCRIPTIONS

Note: Refer to Report for applicable surcharge percentage.

**Line 1 - Total Ambulatory Surgery Revenue Received.** Total Ambulatory Surgery Revenue Received, including patient services revenue and other operating revenue and non-operating revenue received during the report month.

**Line 2 - Total Net Patient Services Revenue Received, including surcharges.** Enter total net patient services revenue received during the report month, including surcharges (be sure to include grant revenue on this line). This amount should also include recoveries received from accounts receivable previously written off as uncollectible. Net patient services revenue includes assessable and **non-assessable** patient services revenue. Net patient services revenue must be reported in the month in which it is received.

Pursuant to Section 2807-j(3)(b) of the Public Health Law, net patient services revenue for diagnostic and treatment centers providing ambulatory surgical services shall mean all moneys received for or on account of all ambulatory surgical services, including capitation payments allocable to diagnostic and treatment center ambulatory surgical services otherwise covered by the assessment, less refunds, for or on account of visits made or services performed on or after January 1, 1997, or contracted service obligations for periods on or after January 1, 1997. This section of the Public Health Law applies to all service periods subsequent to 1997.

**Line 3 - Non-Assessable Revenue.** Report non-assessable net patient services revenue received during the report month according to the following categories. **IMPORTANT NOTE: All these amounts must be included on Line 2 - Total Net Patient Services Revenue Received, including surcharges.**

- a. Report payments related to Medicare eligible beneficiaries on this line. Payments (by Medicare and other payors) to designated providers of services for patient services provided to persons who are eligible for payments as beneficiaries of Title XVIII of the federal Social Security Act (Medicare) are not subject to the HCRA surcharges. This applies whether Medicare is the primary payor or the secondary payor. Also to be included are related co-payment, deductible and coinsurance revenue received. However, revenue received from payors (including patients) making payments to a designated provider where Medicare benefits have exhausted for a particular service or for an uncovered service, shall be subject to all applicable surcharges. The specific surcharge(s) to be applied will be dictated by whether the payor has voluntarily elected to pay the Department's Office of Pool Administration directly.
- b. Payments related to patients covered under the Federal Employees Health Benefits Act (FEHBA) and certain federal government payors such as Job Corps, CHAMPUS/ TRICARE and VA would be entered on this line. Include related co-payment, deductible and coinsurance revenue received.
- c. Report payments received for contracted services performed for other designated providers on this line. Example: A freestanding Article 28 ambulatory surgery center has a contractual agreement with an Article 28 general hospital to perform certain x-ray services. The HCRA surcharges do not apply to the amount the freestanding Article 28 ambulatory surgery service

bills and receives in payment from the Article 28 general hospital.

- d. Revenue received for services provided to subscribers of an HMO operating in accordance with the provisions of Article 44 of the PHL and Article 43 of the Insurance Law, which owns and operates the D&TC, would be reported on this line. Note that this would include uncovered as well as covered services.
- e. Physician practice or faculty practice plan revenue based on discrete billings for private practicing physician services would be reported on this line. This refers to situations where a designated provider processes discrete billings for a private practicing physician service or faculty practice plan.
- f. Report payments received **directly** from the State or the Pool Administrator on behalf of the State pursuant to PHL Sections 2807-1 (Health Care Initiatives) and 2807-v (Tobacco Control and Insurance Initiatives) that are included in Line 2. This would include, but not be limited to grants for the following programs: Health Facility Restructuring, Commissioner's Priority Pool, Health Care Quality and Improvement, Aids Drug Assistance Program, Emergency Medical Services, Children's and Cancer Hospitals, and Health Workforce Retraining.
- g. Report government deficit financing grant revenue on this line.
- h. Other - Include all other non-assessable patient services revenue received during the report month, which is not reportable on Lines 3(a) through 3(g), on this line. Refer to Section 2807-j(3)(b)(ii)(A) through (F) of the PHL for a list of non-assessable patient service revenue items. Examples include co-payments received from patients eligible for medical assistance pursuant to Title 11 of Article 5 of the Social Services Law (Medicaid), co-payments received from patients eligible for the Family Health Plus Program pursuant to Title 11-D of Article 5 of the Social Services Law, and Health Care Services Pool and Professional Education Pool distributions. Additionally, report here certain payments made directly by New York State and its local governmental subdivisions that are non-assessable. Refer to the instructions for Lines 6(a), 6(b) and 6(c) for assessable payments received directly from New York State and its governmental subdivisions.
- i. Revenue received for or on account of referred ambulatory laboratory clinic visits made or services performed on and after October 1, 2000, is reported on this line.

Referred (ordered) ambulatory care laboratory services are defined as clinical laboratory services provided to non-registered patients (i.e., patients who are not registered with a comprehensive diagnostic and treatment center or ambulatory surgery center for clinical services) at the facility upon the order and referral of a qualified physician, physician's assistant, dentist, or podiatrist to test or diagnose a specimen taken from a patient. For purposes of the specific service being ordered for a specific patient, the specified provider ordering the service may not be employed by or under contract to provide direct patient care for the facility.

**Line 4 - Total Non-assessable Revenue.** Enter the sum of the individual amounts reported in the Line 3 subcategories.

**Line 5 - Total Assessable Revenue.** Line 2 minus Line 4.

**Line 6 - Net Assessable Revenue Received from Direct Pay (Electing) Payors** (The payors whose names

appear on the NYS Department of Health WEB site elector list and the State's fee-for-service Medicaid Program). The HCRA WEB address is (lower case):

[www.health.state.ny.us/nysdoh/hcra/hcrahome.htm](http://www.health.state.ny.us/nysdoh/hcra/hcrahome.htm)

Net patient services revenue received from direct pay payors must be segregated into the following categories:

- a. **Medicaid, including HMO/PHSP.** Report payments received directly from the Medical Assistance Program as well as from electing Health Maintenance Organizations (HMOs) and Prepaid Health Services Plans (PHSPs), for services provided to patients eligible for medical assistance pursuant to Title 11 of Article 5 of the Social Services Law (Medicaid) and payments received from electing approved organizations for services provided to subscribers eligible for the Family Health Plus Program pursuant to Title 11-D of Article 5 of the Social Services Law.
- b. **Other Payors.** Report payments received directly from electing agencies of the State of New York (e.g., Office of Mental Health payments for services provided to individuals residing in State operated developmental centers) which have as a program component direct reimbursement to hospitals for rendered inpatient services and payments received directly from electing local governments (in New York State) **ONLY** for services provided to correctional facility inmates.
- c. **All Other Direct Pay Payors.** This would include payments from electing local governments (in New York State) for other than correction facility patients and payments by electing self-insured governmental entities in connection with health benefits for their employees (including Workers' Compensation and No-Fault).

**Line 7 - Total Net Assessable Revenue Received from Direct Pay Payors.** This line is the sum of Lines 6(a) through 6(c).

**Line 8 - Total Assessable Revenue Received from Non-Direct Pay Payors, including surcharges.** Line 5 minus Line 7. The amount reported in Column D, Line 8 must be segregated into the categories listed in Column A, Lines 9 through 13 of the corresponding service period report.

#### **COLUMNAR DESCRIPTIONS - Lines 9 through 13**

**Column A - Non-Direct Pay Payors.** Provides specific line descriptions of non-direct pay payors.

**Column B - Total Assessable Revenue, including surcharges.** This column is to be used to report total net patient services revenue received from non-direct pay payors during the report month (Column D, Line 8 of the corresponding service period report). However, where a provider erroneously reported non-direct payor payments under the wrong surcharge factor (Column B, Lines 9 through 13) on a prior month's report, then equivalent positive and negative adjustments should be netted from the affected line totals and adjusted amounts reported on the appropriate line in Column B.

**Column C - Surcharge Factor.** This column provides the appropriate surcharge factor for each class of non-direct pay payors shown in Column A, Lines 9 through 13.

**Column D - Assessable Base.** Column B divided by Column C.

**Column E - Surcharge Payable.** Column B minus Column D.

## **LINEAR DESCRIPTIONS - FOR ASSESSABLE REVENUE - COLUMN B.**

Note: Refer to Report for applicable surcharge percentage.

**Line 9 - Medicaid-HMO/PHSP/Non-Specified Payors.** Report payments received from non-electing HMOs or PHSPs and any other payor not specifically listed in PHL Section 2807-j(1) (non-specified payor), for services provided to subscribers eligible for medical assistance pursuant to Title 11 of Article 5 of the Social Services Law. See Line 12 for non-specified payor example. Also report payments received from non-electing approved organizations for services provided to subscribers eligible for the Family Health Plus Program pursuant to Title 11-D of Article 5 of the Social Services Law.

**Line 10 – Other Payors.** Report payments received from non-electing agencies of the State of New York (i.e., Office of Mental Health payments for services provided to individuals residing in State operated developmental centers) which have as a program component direct reimbursement to hospitals for rendered inpatient services and payments received directly from non-electing local governments (in New York State) **ONLY** for services provided to correctional facility inmates.

**Line 11 - Self-Pay Uninsured, and Patient/Secondary Payor Co-pay, Deductible and Coinsurance Amounts (where primary payor is a direct pay payor).**

Self-Pay Uninsured - Report revenue received from patients who do not have any third party health insurance coverage in whole or in part, and also revenue from insured patients who have exhausted their health care benefits or are making payments for an uncovered service, except for certain HMO patients described on Line 3(d).

This line would also include patient and secondary payor co-payment, deductible and coinsurance amounts where the primary payor is a direct pay payor. This amount would be net of the amount reported on Line 18 as co-payment or deductible patient payments for which the patient's third-party payor has submitted related surcharges directly to the Department's Office of Pool Administration.

**Line 12 - Non-Specified Payors.** Enter total net patient services revenue received from any payor not specifically listed in PHL Section 2807-j(1). Example: A freestanding Article 28 ambulatory surgery center has a contractual agreement with a nursing facility to perform certain x-ray services for the nursing facility's patients. The freestanding Article 28 ambulatory surgery center is providing a surchargeable service for the nursing facility (non-specified payor). The HCRA surcharges apply to the bill the ambulatory surgery center submits to the nursing facility. Since the nursing facility is not a specified payor pursuant to Public Health Law and is therefore not required to make an election to make pool payments directly, only the surcharge applies.

**Line 13 - All Other Non-Direct Payors.** Report on this line payors subject to the non-direct payor surcharge. This would include any payor specified under Public Health Law as being allowed to remit pool payments directly which has not made such election. Note also that this would include patient and secondary payor co-payment, deductible and coinsurance amounts where the primary payor is a non-electing payor.

## **LINEAR DESCRIPTIONS - SUMMARY LINES.**

**Line 14 - Total Assessable Revenue, including surcharges.** Sum Column B, Lines 9 through 13. This amount must equal the amount reported in Column D, Line 8 of the corresponding service period report.

**Line 15 - Gross Surcharges Payable.** Sum Column E, Lines 9 through 13.

**Line 16 - Less: Administrative Fee.** This line is the product of 2% of the amount reported in Column D, Line 13.

**Line 17 - Net Surcharges Payable for the Month.** Line 15 minus Line 16.

**Line 18 - Co-pay or Deductible Patient Payments.** Enter total co-payment and deductible patient payments received during the report month for which the patient's third-party payor had submitted related surcharges directly to the Department's Office of Pool Administration. This amount should have been netted against the gross amount otherwise reportable in Column B, Line 11 and the net amount reported on such line.
